

# + Elos NL Community of Practice Meeting

September 5th  
18.00 - 21.00  
The HUB Amsterdam  
Westerstraat 187

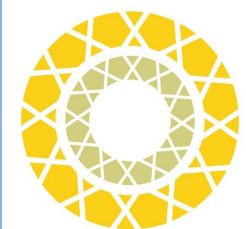

## Non violent communication

During this special Elos Community of Practice we'll dive into the challenge of dealing with resistance of people during Oasis Games and in general in work/life-situations. We'll take a deeper look at the basics of non-violent communication, exchange experiences with dealing with resistance and do some exercises to practice how to work with that in a constructive way in community engagement.

The evening will be hosted by Oasis practitioner Maartje Bos, social worker/family coach with multi problem families and supported by Niels Koldewijn of Elos Nederland. We'll be joined by two experts in non-violent communication; Rodrigo Alonso and Marianna Gauche Motta of Brazil, founders of Instituto Elos.

Although we deal with the subject of resistance, we'll make sure to make it light, pleasurable and irresistible during these three hours. We'll take care of a snack and some drinks. Please RSVP to [Niels@elosnederland.nl](mailto:Niels@elosnederland.nl).
